

PAS Named #1 Global Provider of Safety Lifecycle Management by ARC Advisory Group

Leadership

PAS Rankings

- #1 in Chemical
- #1 in Power Generation
- #1 in Oil & Gas
- #1 in Refining
- #1 in Global Market

Highlights

Insights & Recommendations

- “Lifecycle management can be laborious and expensive... manual intervention and data capture... woefully inaccurate and misleading.”
- “...seek a solution that provides a single version of the truth... automatically gathers information and creates easily auditable records...”

Definition

Critical Capabilities

- Alerts & notifications
- Documentation & enforcement
- Management of change
- Advanced reporting & analysis
- And more...

“... ARC recommends you “do your homework” and gain a familiarity with both alarm management, cybersecurity, and safety standards because they are critical to safe plant operations and achieving operational excellence.”

Mark Sen Gupta and David Clayton, ARC Advisory Group
